Industry Status

The cryptocurrency market is expected to grow from \$1.6 billion in 2021 to \$2.2 billion by 2026.

It is clear from these predictions that the crypto market is only going to increase in popularity and that means merchants need to add Crypto as one of the payment methods in their business, otherwise they may miss out on sales.

About HamBit

By 2022, HamBit has successfully launched a payment + application ecosystem forming a sustainable and expandable business model, serving demands from different industries including Crypto exchanges, Metaverse, GameFi, cross-border e-commerce, and real economy. HamBit is committed to become the world's leading innovative Payment solutions provider.

HamBit supports USDT, USDC, BUSD and other stablecoins, together with 50+ main tokens in receiving and payments, not subject to locations or institutional restrictions, enabling instant settlement for cross-border payments, and cost savings up to 300+%.

HamBit is partnering with global payment providers including Visa, MasterCard, major bank cards, and Apple Pay in transactions, covering secure payments in more than 150 countries and fiat currencies anytime, anywhere.
